MEDICAL STUDENT HEALTH SERVICE
**Patient Consent**

**PERMISSION FOR MEDICAL TREATMENT:**
I hereby authorize the Student Health Service of New York University Grossman Long Island School of Medicine to administer care and treatment. Such care may include evaluation and treatment of injuries and illnesses and the administration of medication orally or by injection. I also give permission to the Student Health Service to secure proper treatment for me, in case of medical or surgical emergency, if according to their best professional judgment; further delay might jeopardize my welfare.

Upon request, I may have HIV testing done at SHS. Testing is voluntary. The law protects the confidentiality of HIV test results and other related information. The law also prohibits discrimination based on an individual's HIV status. This consent for HIV testing will remain in effect while I am a student at NYU Grossman Long Island School of Medicine, unless I revoke it either orally or in writing. I am aware that:

- HIV is the virus that causes AIDS and can be transmitted through unprotected sex (vaginal, anal, or oral sex) with someone who has HIV; contact with blood as in sharing needles (piercing, tattooing, drug equipment); by HIV-infected pregnant women to their infants during pregnancy or delivery; or while breast feeding.
- There are treatments for HIV/AIDS that can help an individual stay healthy.
- Individuals with AIDS can adopt safe practices to protect uninfected persons from acquiring HIV and infected people from acquiring additional strains of HIV.
- Anonymous testing is available at a public testing center.

**PRIVACY AND CONFIDENTIALITY OF MEDICAL RECORDS:**
The Student Health Service maintains the student's medical record on EPIC, the electronic medical record used at NYUGLISOM. In order to maintain your confidentiality, we have the ability to chart your encounter in a subsection of the EPIC record that may only be accessed by Student Health Service providers. The only information that will be visible to other providers within the NYU Langone Health is a record of your allergies, medications and lab results. Your health records are protected by the Family Education and Privacy Act (FERPA), as well.

**PERMISSION FOR RELEASE OF INFORMATION:**
I hereby authorize the Student Health Service to disclose my health information in the following limited circumstances:

- Providing health care to me. For example, the Student Health Service may share health information with individuals who provide or assist in the coordination or management of my health care.
- Providing immunization records and/or laboratory test results only, for clinical rotations in the various clinical sites.

I understand that I will need to provide additional written consent to have my medical records released under any other circumstances.
