

NYU Langone Health

POLICY ON SUBSTANCE ABUSE & ALCOHOLIC BEVERAGES		
EFFECTIVE DATE: April 2019	REVIEWED DATE:	REVISED DATE:

## I. POLICY:

For any members of the NYULISOM community who may have developed a drug-related problem, suspect they are at risk, or seek information about illegal or controlled drugs, several support programs are available (see list of resources below). In addition to policies and practices that emphasize concern for the welfare of individuals, NYULISOM also recognizes the importance of maintaining the safety and well-being of the community as a whole. NYULISOM therefore adheres to the following guidelines concerning the unlawful possession, use, and distribution of drugs:

1. The unlawful possession, use, or distribution of drugs will not be tolerated on NYULISOM/NYU Winthrop Hospital or the premises of any of its affiliates.
2. Upon finding evidence of the unlawful possession, use, or distribution of drugs on its premises by any student, NYULISOM will take appropriate disciplinary action, including, but not limited to, probation, suspension, or expulsion.
3. Using regularly established procedures, NYULISOM will take disciplinary action, up to and including discharge, against any member of the faculty, staff, or student body found unlawfully using, possessing, or distributing drugs. Faculty, staff, and students should also be aware that, in addition to sanctions, they might be subject to criminal prosecution under federal and state laws that specify fines or imprisonment for conviction of drug---related offenses. Where appropriate or necessary, NYULISOM will cooperate fully with law enforcement agencies.

New York University's policies on substance abuse apply to students NYULISOM as they do to students of other schools of the University. The University's policy on Substance Abuse and Alcoholic Beverages can be found online at:

<https://www.nyu.edu/about/policies-guidelines-compliance/policies-and-guidelines/substance-abuse-and-alcoholic-beverages.html>

### **Programs Available at NYU Long Island School of Medicine:**

The following programs and services are available:

Substance use counseling voluntarily and confidentially at the Student Health Center. Please call 516-663-1500 to make an appointment with one of our counselors.

**II. PURPOSE:** Consistent with the values of New York University, NYU Long Island School of Medicine (NYULISOM) is committed to the education of its students, faculty, administrators, and staff about the dangers of drug abuse. We believe that the best way to achieve and maintain this objective is through preventive education about the dangers of drug abuse and compassionate attention to the needs of those who may require help with drug-related problems. To that end, NYULISOM provides on-campus support programs and services as well as information about related services that are available in the local community.

**III. SCOPE:** This policy applies to all NYU Long Island School of Medicine's students.

### 3.5: Learning Environment/Professionalism

A medical school ensures that the learning environment of its medical education program is conducive to the ongoing development of explicit and appropriate professional behaviors in its medical students, faculty, and staff at all locations. The medical school and its clinical affiliates share the responsibility for periodic evaluation of the learning environment in order to identify positive and negative influences on the maintenance of professional standards, develop and conduct appropriate strategies to enhance positive and mitigate negative influences, and identify and promptly correct violations of professional standards.
